

## Diocesan Guild of Church Bell Ringers Central Branch Newsletter (number 78) June 2012

On looking through the list of towers in the branch it is clear that nearly everyone responded to the call to ring for the Queen's Diamond Jubilee. Well done all of us! Quite a few quarters were rung and a couple of peals, and a group from the Potterhanworth benefice did a great deal of ringing at a number of towers. Far more significant however was the number of

towers where the local band rang a dedicated piece of ringing, maybe methods but mostly call changes, to congratulate Her Majesty on 60 glorious years of service. These were often associated with village celebrations or before Jubilee services in the local church. This is where the strength of the Guild lies, and this is what ringing is really all about.

I have tried to summarise your achievements, sadly there is no room for individual names, but you know who you are!! Obviously I can only record those that I have been told about, and if I have inadvertently mislaid a piece, my humblest apologies in advance!! I know you will put me right.

The 'ringing marathon started on the Friday when quarters were rung at St Botolph's, Lincoln and at Potterhanworth. The one at Scothern was rung by the special request of the village Jubilee organising committee. 30 minutes of call changes were also rung at Potterhanworth including members of the local primary school ringing club.

A peal was rung at the Cathedral on Saturday 2<sup>nd</sup> June and quarters at Dunston and Thorpe for the village street party and fun day.

It is hardly surprising that a large proportion of the ringing took place on the Sunday when the local ringers turned out in force to ring for Jubilee services., Nettleham rang for the normal morning service, and at Bassingham they rang both before a and after service. Bardney were proud to be able to turn out an all local

band to ring for the service without having to augment. Quarters were rung at Potterhanworth, Washingborough and St Mary's, Lincoln. This last consisted of 60 extents, one for each year of the Queen's reign. Dedicated call changes were rung before service at Caythorpe, Metheringham (twice, once on 6 and once on 8) and Timberland. Quarters preceding Jubilee services were rung at Dunston and the one at Hackthorn was the first quarter for Robert Cox. Congratulations, Robert! There was special general ringing for Jubilee services at Welton, Thorpe-on-the-Hill and Branston, while Nocton and Sleaford chose to ring as the Thames pageant was taking place, (Sleaford ringing 600 Bob Doubles, 10 changes for each year).

Monday, the first of the two Bank Holidays, saw another day of village celebrations enhanced by the ringers. During these the bells were rung at Navenby and general ringing took place at Fulbeck before and after speeches (led by a suitably attired Master of Ceremonies) to start the village celebrations. They were rung at Swinderby before a special service, at Welbourn after a wedding, and at Wellingore for the street party. There were quarters at Nocton and Metheringham. That at Waddington was rung by the local band, and that at Ewerby was before the village hog roast and lighting the Ewerby Beacon (the band then joined the festivities, watching the beacon lighting). Quarters were also rung during the day at Harmston, St Mary Lincoln, and St Peter, Lincoln. The quarter at St Mary was significant in that it means that Martin Pearson has rung a quarter there for each of the Queen's Jubilees - Silver, Gold and Diamond. Congratulations Martin! The peal at Wragby combined the celebration of the Jubilee with congratulations to Jim Sutherland on his 80<sup>th</sup> birthday.

In addition to all this was a chain of ringing at the Potterhanworth group of parishes for the lighting of the beacon. They rang 15 minute call changes starting at Metheringham at 10-00, Potterhanworth taking this up on their original 3 during the lighting at 10-20, followed in turn at Nocton starting at 10-25.

Finally, the branch outing on the cliff road, (Caythorpe, Welbourn, Wellingore Washingborough) leading on to the guild

celebration at Wragby was not the only ringing to take place on Tuesday, the special extra Bank Holiday in honour of the Queen. A quarter was rung at the Cathedral in the morning and call changes were rung at Caythorpe by a local band before the street party in the afternoon, and ringing also took place at Eagle for a celebration service. The Potterhanworth group organised another chain of ringing during the National Service of Thanksgiving - 30 minutes call changes at Metheringham, Dunston, and Nocton, with a quarter at Branston and Potterhanworth. All the tributes rung by this group of ringers were called into Queens before being stood.

Finally we must include the quarter of the appropriately named Diamond Bob Triples which was rung at St Giles on 8<sup>th</sup> June, and the quarter at Nocton on 10th June rung to celebrate the Duke of Edinburgh's 90<sup>th</sup> birthday, to mark the fact that he has stood by and supported Her Majesty throughout her 60 year reign.

### **Suggested Ringing Programme for 2012 – 2013**

Aug 11	Ring for your supper at Waddington, Woodside Campanile and Washingborough		
<b>Sep 8</b>	<b>Guild 6-bell striking competition (and branch outing?)</b>		
Oct 13	t.b.a	7.00 – 9.00	
<b>Oct 27</b>	<b>Guild 8-bell striking Competition</b>		
Nov 10	Hackthorn Quiz	7.30 – 9.30	7.30
Dec 10	Swinderby Carol Service	3.00	
Jan 12	Heckington AGM		
Feb 9	Bardney	2.30 – 4.00	
Mar 9	Nettleham	2.30 – 4.00	

We are grateful to Sue Waterfall for arranging Surprise Major Practices at Washingborough. They are held 10-30 – 12 on Saturdays), 28 July, 28 Aug, 29 Sept (many of us will be away on 22), 27 Oct, 24 Nov, 22 Dec.

**Put all these dates in your diary.**

**These meetings are subject to change during the year. Do check.**

## **Jubilee Ringing**

**Send details of your ringing that are not included in the summary in this Newsletter to Jonathan or the Branch Secretary for the Guild tribute (see report of Guild Committee).**

## **Thank you**

Thank you to those who helped Joan when I was first taken ill and particularly the person who had called to see me and helped Joan to send for the Rapid Responders. Also to those who visited me in hospital. This friendship helped both of us through a very difficult time.

*John Ketteringham*

[It is good to know that John is now much better and is in circulation again].

The local ringers and Church authorities would like to thank all the branch members who have supported Metheringham Bell Fund by purchasing refreshments and/or cakes at the Branch meeting at Dunston in March where £28 was raised and at the Rabbits Competition at Potterhanworth in May where £45 was raised! A big thank you to everyone!

We couldn't find the ringers and were told, 'They're in the loo.' 'What all of them?' 'Yes.' 'Together?' 'Yes!' . . . (it was a new eco loo and they were inspecting it!)

## **Branch Meeting Saturday 14 April**

This was a seminar on basic bell and frame maintenance held at St Giles Church Lincoln. At 5 pm five tower representatives ascended to the bell chamber along with Philip Dawson and Mick Stracey for instruction in the basics. Rather than just listen to Philip stating the obvious, most of the time was spent as a question and answer session with topics ranging from tightening crown staples to gudgeons and twizzle pins. Much discussion ensued with many good points offered from the floor so more an exchange of ideas than a lecture. One participant was quite vocal in his thanks for tips learnt.

An excellent spread of tea/coffee and biscuits was provided by Betty who was just back from a successful running event in Finland - Gold, Silver and Bronze medallions displayed as proof. Back up the tower for a splicing session provided by John Nicholson.

Around 7 pm more ringers arrived so the bells were raised for an evening session which included Plain Bob, Yorkshire, Stedman, Lincolnshire, 8-spliced and Single Oxford Bob Triples.

We have since learnt that local parishioners commented on the good standard of ringing - much to Mick's pleasure.

Thank you Mick for the use of your belfry and your input during the training session.

*Philip Dawson*

### **Rabbits Potterhanworth 12 May**

Owing to the Diamond Jubilee, this activity was moved away from the Late Spring Bank Holiday to a regular meeting day. Was this a success?

We managed to muster four teams but there were very few inexperienced ringers. Those who did come had an enjoyable time being asked to recognise Central Branch Towers from old photographs. It was amusing to discover who could not identify their local tower. We could also do a 'Fun' quiz in and around Potterhanworth Church. Thank you Christine for doing this.

We were well catered for by Yvonne who must have spent too long in the kitchen baking all those cakes, but we did enjoy them, thank you. I am sure that the Metheringham Bell Repair Fund will appreciate your efforts.

It was good to see the improvements within the church though I understand the kitchen is only a temporary affair. Let's hope they soon have enough money to install the toilet facilities.

What was missing? It would have been better with more less experienced ringers and perhaps a few more rabbits hopping through the churchyard. So, next time, come along and see what you are missing.

*Fiona Dawson*

## **At the Guild AGM in April**

all the officers except one were re-elected. John Nicholson is the new Report Secretary. Jonathan Clark is the web-Master

There were presentations by Robin Heppenstall about **The Ringing Foundation**, by Alan Payne on **Change-ringing for the future** and by Sue Faull on The Integrated Teacher Training Scheme.

Details were given of future **ringing activities**: **Diamond Jubilee** ringing, ringing when the **Olympic Torch** comes into the area; the **Striking Contest Finals** dates and venues: Sat 30 Jun **National Youth Contest** Sat 8 Sept at Birmingham; 6 bell contest Butterwick and Wrangle; Sat 20 Oct inter-branch 8 bell contest at Surfleet (Course of Oxford Treble Bob Major).

## **Guild Committee Meeting 23 June**

CRB checks can now be obtained to work with children Guild-wide. Details on web-site.

The Jubilee ringing a great success. Details of who rang what, when and why to be collated and a permanent record to be placed in the Guild library to commemorate the Jubilee. Details to Branch secretaries (or Newsletter Ed) a.s.a.p. Any **photos** taken at the event please to Jonathan.

There are still two numbers available for the 100 club. See Dot.

Rise in peals rung for the guild so far.

Guild Rules need updating. Minor adjustments needed now. A major overhaul may be necessary

Possibility of a Ringing Centre at Stow. The Guild offered its full support of 'manpower' in the running of training sessions.

The main business of the meeting was discussion of how to implement a review of the Guild Objectives and Operations in response to the local and national concerns about falling numbers of ringers.

Plans to be developed in 5 key areas:

1. Teaching and Coaching;
2. Recruitment and Retention
3. Development of Ringers
4. Ringing Standards
5. Guild and Branch Organisation.

Small groups to be set up to discuss each in detail, reporting back regularly to the committee.

This is a long term project.

‘At the blood donor clinic the very nice nurse said on no account was I to ring Bobs in Bob Minor for at least six weeks!’

### **Branch Meeting : The Cathedral : 9<sup>th</sup> June**

Walking through the Exchequer Gate and seeing the West Front grow until it fills the visual field is a breathtaking approach to the Cathedral. For me the most evocative moments are on foggy November nights, but June evenings have their charms. Grey skies, slanting rain, cold winds whipping up a storm in the puddles on Minster Yard. Better get inside and start ringing. Which is what 20 of us did, making our way through that small secret door on the right which leads directly into the Ringers’ Chapel.

The programme was really well thought out, making full use of the 2 hours. Training exercises alternated with more complex methods to give everyone a challenging ring. The learners started with rounds on 10 progressing to call changes and then hunting on 11 – this is a great experience for those of us who only ring on 6. The methods included Grandsire, Plain Bob, Yorkshire Royal, Cambridge Maximus, and ending the evening with a touch of Stedman Caters to show us how ringing should sound.

For the inexperienced, encouragement and help were always at hand and cheerfully given. No one complained when rounds or hunting were called, the heavier bells being rung by the experts providing a solid base on which to learn. Everyone was made to feel welcome. Thank you to Les Townsend for allowing us to ring in one of Europe’s greatest cathedrals (if not ‘the’ greatest). And

thank you to Richard Spencer, and all the officers of the branch and teachers, for a memorable evening in this jubilee summer. If you missed this opportunity, there will be another when the branch ring for evensong on August 12th . Do come.

*Richard Thornton*

### **Ringling at the Cathedral**

I was really excited to be invited to ring at the Cathedral for the branch practice meeting. I had butterflies in my tummy as I climbed the 125 steps up to the ringing chamber. But it helped that I had already rung with most of the people there before. I rang rounds and call changes but it was really different ringing with 12 bells rather than 6. I had to make sure that I rang really slowly almost always setting my bell. Afterwards I felt really proud that I had rung at the cathedral. How many 11 year olds could say that they had rung at the cathedral?

*Hannah Watt (Welton)*

### **Welcome**

- - - to **Hannah Watt** of Welton and **Matthew Burton** of Dunholme who were elected members at the Rabbits meeting at Potterhanworth.

### **Branch Committee Meeting 27 June**

The Committee are concerned that events are poorly attended on the whole. We discussed how we could make things more relevant to your needs. Only two inexperienced ringers came to the 'rabbits' competition. This was very disappointing! We get the impression that some people do not come to meetings because they consider they are not good enough to ring with the 'experts'. This is nonsense. (Read the account of the meeting at the Cathedral last month to allay your fears on that score!) Ringing together is a social activity That's what the Guild and the Branch are here for! We all had to learn and we do NOT look down on those who are less accomplished!!! – but are anxious to give

everyone the opportunities we had. The meetings ARE FOR **EVERYONE**.

We say again, 'If you want to ring a quarter peal, to practice a new method or just be supported in where you are in your ringing, ask a committee member and we will try to accommodate you, (in your own tower if you want).'

We are planning a ringing outing on Saturday September 8<sup>th</sup> heading towards the Boston area - a couple of towers, lunch and a couple more towers finishing where the Guild 6 bell Contest final is taking place . We hope to include something of interest for ringers and non-ringers alike. Do come. It should be fun.

Looking ahead to next year's programme, what would you like to see?

Have we a host group for the Ring-for-your-Supper?

Training sessions : Do we want a basic conducting course?

How to call call changes? A teacher training course within

the branch? Anything that you would like? We are open to

suggestions for anything that will be of use/enjoyment for a

wide take-up of activities. Social events seem more popular

Any ideas?

If you read this Newsletter and we don't know your face, can you tell us why you don't come to meetings?

Is it a question of time?

Is it lack of interest in our activities?

Do you feel it's just not for you?

Is there any other reason?

What would you like to see us organise that you would like to come to?

**THIS IS YOUR GUILD** and we want you to enjoy the fellowship we have to offer.

John go down to 3-4 and . . . . .do something!

## **Obituary**

**Cyril - Phil Pitchford**

**1920 - 2012**

His real name was Cyril but he was always called Phil. He was born and brought up in Derbyshire and during WW2 he served in the Royal Air Force, obtaining the rank of Flight Sergeant. India was the most talked about posting. On June 14<sup>th</sup> 1945 at the recommendation of King George VI he was mentioned in dispatches for distinguished services. This appeared in the London gazette.

He married Kathleen toward the end of the war, later making their home in Brant Broughton. He was employed by Rustons in the shipping department, becoming manager, and travelled to and from work on a motorcycle.

Phil was taught to ring at Brant Broughton by Mr Tom Rogers, and rang his first peal on 21<sup>st</sup> February 1959. After moving to Lincoln he rang at St Peter-at-Gowts, coming under the influence of Mr John Ashley Freeman. He rang 75 peals for the Lincoln Guild, conducting 2. They ranged from Doubles to Maximus..

Phil came to his first practice at Lincoln Cathedral in 1967, encouraged by Walter Tomlinson and Geoff Parker. I stood behind him for his first touch on 12 bells - 3 leads of Kent Maximus. He adapted to 12-bell ringing very quickly ringing 24 peals at the Cathedral, including Londinium Maximus and London Royal. He rang 23 at Brant Broughton, 21 of those being Grandsire Doubles. He became a full member of the Cathedral band in July 1968.

Phil and Kath loved walking, Scotland being favourite. He knew every footpath. He travelled abroad, both from work and a world cruise when he retired. He had a very active mind for memory to the end. I didn't know, but his brother-in-law said he was also an accomplished pianist. He loved to tell yarns, having many stories of travel and ringing. He was a kind and gentle man, a true friend to everyone. He and Kath were dedicated worshippers at All Saints Church, North Hykeham.

Sadly he passed away on Saturday 28<sup>th</sup> April. He will be greatly missed by everyone who knew him. We extend our condolences

to Kathleen, Robert and Gill and their families. May he rest in peace.

*Harold Gibson*

We are sorry to hear of the death of Beryl Radley, widow of Harold former tower captain and churchwarden of Dunholme. A fuller obituary will appear in the next Newsletter.

After the farewell service of the retiring Vicar, he was seen carrying his chair to the back of the church. When asked if they had left him to carry his own chair himself he replied, 'It is the lot of the clergy, they're always asked to take the chair at meetings!'

### **News from the towers**

On Friday June 1<sup>st</sup> 30 minutes Rounds and Call Changes were rung at **Potterhanworth** by Christine Hasman 1, Daniel, Andrew, Orissa, Ella, Charlotte and Chloe 2, Ian Hasman 3, Yvonne Woodcock 4, and John Nicholson 5 by the Potterhanworth C of E Primary'After School Ringing Club to celebrate the Jubilee. Daniel Copsley, Andrew Spence, Orissa Sansoa-twell, Ella Marshall, Charlotte Alderson (all aged 10 and pupils of the local school) took turns to ring the second with Christopher Woodcock standing by to help. This is an encouraging development in the move to popularise ringing among the young ones. Well done to everyone involved!

A quarter was rung for morning service at **Dunholme** during which two new peal boards were dedicated, the first recording a peal rung to celebrate the Golden Wedding of the former tower captain, Harold Radley, and his wife Beryl; the second to record the peal rung to celebrate the 100th anniversary of the first peal

on the bells and the 50th of David Fox's first peal. . It was also a thank you to Val and David Fox and John Bundy for their hard work in refurbishing the ringing room. It is a pleasure to ring there now!

In her prayer of dedication the Vicar said: 'These boards remind us that those who currently serve the church in this way as ringers are part of a long line of men and women who have carried on the age-old tradition and duty of calling people to worship - a tradition being handed on to future generations who will continue this work. We now dedicate this peal board, placed in gratitude for all that has been, held in honour and respected with care, praying for continued blessing on all our ringers as they continue in their work

### **Congratulations**

- - - - to **Jim Sutherland** on his 80<sup>th</sup> birthday. Friends rang a peal of seven Surprise Minor (Cambridge, Ipswich, Bourne, Beverley, Surfleet, Westminster and Allendale). at Wragby as part of the Queens' Jubilee ringing on 5<sup>th</sup> June in his honour. They were John Lacy 1, James Benner 2, Barry Jones © 3, Ian Dawson 4, Peter Lacy 5, and Christopher Woodcock 6. He had taught ringers of 1, 3, 5 and 6 to ring.

- - - to **Robert Cox** on ringing his first quarter, the Tenor to Bob Doubles as part of the Jubilee ringing, at Hackthorn on 3 June

- - - - to Martin Pearson on ringing for all three of the Queen's Jubilees, Silver, Golden and Diamond, at the same tower, St Mary's, Lincoln.  
friends.

- - - - to **Sally Turnbull** of Hackthorn who was ordained priest at the Cathedral on 30 June.

## The Olympic Torch

There was a great response to the request to ring to welcome the torch. At Sleaford they rang Bob Minor for half an hour as it passed through. Christopher had the idea to ring as many bells simultaneously in Lincoln as possible. As a result single bells in 10 churches/chapels and the Lincoln Guildhall, together with three 2-bell venues, the 8-bell chime at Holy Cross, the 3-bell chime at St Hugh,s RC church for 12 minutes . At the same time 12 Minutes of call changes were rung at St Mary, St Peter, St Botolph and St Giles, and during this time the bells of the Cathedral were being rung to welcome the torch to Lincoln. (63 bells altogether). In addition quarters were rung at St Giles (Lincolnshire S Major), St Mary (Plain Bob Minimus), St Peter (3 Doubles) and St Botolph (Bob Doubles).As the torch left Lincoln the following morning, the Cathedral ringers sent it on its way at 8a.m., and the bells were clearly heard in the background on the BBC coverage that evening.

‘Please will you bystanders make a noise quietly!’

If you don’t fall in with people, at least you can’t fall out with them!

‘I can’t remember when to dodge.’

‘You carry on till you hit the treble.’

Treble ringer : ‘Don’t do that’

‘Why not’

‘It would hurt me!’

## Branch Quarter Peals
