

## **Proposed 8 Bell Initiative for EB**

A new initiative for 2018 - the Eastern Branch Committee are proposing to hold monthly (or bi-monthly) eight bell method practices. The intention is to provide an opportunity for ringers wishing to advance their method-ringing ability on eight bells, with an overall aim of ringing to a good standard. This could include:

- Covering to Triples Methods – essential for good triples ringing and a skill that helps with ropesight and listening.
- Ringing the treble to Plain and Treble Dodging Methods.
- Ringing a working bell to Plain, Treble Dodging or Surprise Major Methods.

If this sounds like the sort of practice you would be interested in, please contact Tony with your preferred day of the week for an evening practice or time of day for a Saturday practice (the current consensus is for Friday evening). Subject to feedback received, a decision will be made at the branch AGM on Saturday 27<sup>th</sup> January 2018.

It is proposed that these practices initially be held at Ingoldmells.
