**Notes :**

1. The peals and compositions published in the LDG Annual Report for 1983 were not numbered and the numbers used here have been supplied by John Underwood.
2. Compositions rung in 1951 were published in a loose leaf supplement to the Annual Report.
3. The peal (No 3557) to which this composition was rung was withdrawn in a letter from Jack Millhouse the conductor which was published on page 595 of the 1960 Ringing World. It was subsequently found that the composition was true to the Method and, therefore, there is no mention of this in any of the Guild Annual Reports.

#### Notes :

1. The footnote to the peal of 5032 Plain Bob Royal (Burton-on-Stather variation) rung on handbells in 1932 and conducted by Walter Ayre reads :

*Arranged by Jack Bray. The fourth lead in each course was rung with the treble going to 8th only, making 7-lead courses of 136 changes each.*

The chairman of the Central Council Methods Committee comments as follows :

*I think we would now consider it to be a peal of Spliced Royal in 2 methods: 4440 Plain Bob, 592 Burford Differential Little Bob, 74 changes of method.*

2. The peals and compositions published in the LDG Annual Report for 1983 were not numbered and the numbers used here have been supplied by John Underwood.
3. Compositions rung in 1951 were published in a loose leaf supplement to the Annual Report.
